- Data analysis
- Data cleaning & Validation
- Data Visualization
- Data Storytelling
- Exploratory data analysis (EDA)
- Product & business metrics (conversion, ARPU, LTV, retention, churn)
- Basic statistics
- SQL
- Python
- A/B Testing

TOOLS

- Microsoft Excel
- Google Sheets
- BigQuery,
- Looker Studio
- Jupyter Notebook
- Tableau
- Power BI
- Pandas
- NumPy
- Matplotlib / Seaborn

SOFT SKILLS

- Analytical thinking
- Attention to detail
- Communication with stakeholders
- Problem-solving
- Time management

PROJECT EXPERIENCE

Cinema Industry Trends Analysis

<https://github.com/Zawertia/Movie-Industry-Data-Analysis-1980-2023->

Technologies: Python (Pandas, NumPy, JSON processing, Matplotlib)

Description:

- Analyzed long-term trends in the film industry using historical movie datasets.
- Processed complex JSON data (genres, cast)
- Transformed nested structures into analysis-ready format
- Analyzed trends across decades
- Visualized genre evolution and patterns

Global Developer Ecosystem Analysis (EDA Project)

<https://github.com/Zawertia/2023-Stack-Overflow-Annual-Developer-Survey>

Technologies: Python (Pandas, NumPy, Matplotlib, Seaborn)

Description:

- Analyzed ~89k respondents using **Python** to identify salary trends and technology adoption.
- Cleaned "dirty" data and performed **Quantile Analysis** to profile top-earning segments.

- Visualized correlations between experience, education, and compensation using **Seaborn**.

WORK EXPERIENCE

SMM / Content Specialist

Marketing Agency (Healthcare) | 2019 – Present

Responsibilities:

- Analyzed content performance (engagement, reach) to optimize strategy
- Collaborated with designers and editors to test content formats
- Adapted medical content for target audiences

Achievements:

- Improved content engagement through data-driven adjustments
- Built structured content approach for multiple healthcare projects

Content Department Coordinator

Vanilla (E-commerce) | 2015 – 2019

Responsibilities:

- Managed email campaigns and analyzed engagement trends
- Structured and maintained website content
- Coordinated remote team performance

Achievements:

- Improved content consistency and quality across the platform
- Optimized email communication approach

Sales Support Specialist / Analyst (Inventory & Procurement)

Ukravtozapchast | 2014 – 2015

Responsibilities:

- Analyzed inventory requests and optimized stock levels
- Identified low-performing products and adjusted supply decisions

Achievements:

- Improved stock allocation by identifying overstocked and slow-moving items
- Reduced inefficiencies in product movement by aligning supply with actual demand patterns

Procurement Manager

Ukravtozapchast | 2007 – 2011

Data-Driven Inventory: Optimized stock levels by identifying slow-moving items and aligning supply with demand patterns.

Business Analysis (1C): Acted as a liaison between business and IT to design and implement a supplier tracking system (1C), improving financial control company-wide.
